In re Patent Application

Case Docket No. 20859

Filed: February 21, 2002

Express Mail No. EL912162005 US

Inventors: Michael Brandt, Apollon Papadimitriou

For: PEG CONJUGATES OF NK4

INFORMATION DISCLOSURE STATEMENT

Nutley, New Jersey 07110

February 21, 2002

Commissioner for Patents
Washington, D.C. 20231

Sir:

Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98, applicants respectfully direct the Examiner's attention to the documents listed on enclosed Form PTO-1449.

Documents A1, B1-B3 and C1-C13, listed on Form PTO-1449 are enclosed.

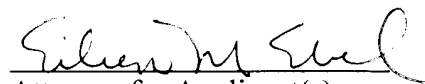

Enclosed is a Search Report, which was issued by the European Patent Office in the European application corresponding to the captioned application and communicated on August 31, 2001. The Search Report lists Documents B1-B2 and C1-C11. U.S. Patent No. 5,977,310, which corresponds to document No. B1 (EP 0 816 381), is provided as document A1. An English language version of the Categories identified on the Search Report is provided.

Case Docket No. 20859
Filed: February 21, 2002

Consideration of all the documents cited on Form PTO-1449 is requested.

Since the Information Disclosure Statement is submitted before the mailing of the first Office Action on the merits or within three months of the filing date for the above application, no fee is due.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Eileen M. Ebel", written over a horizontal line.

Attorney for Applicant(s)

The first part of the paper discusses the importance of the study and the objectives of the research. It highlights the need for a comprehensive understanding of the subject matter and the role of the researcher in this process. The second part of the paper presents the methodology used in the study, including the data collection methods and the analysis techniques. The third part of the paper discusses the results of the study and the conclusions drawn from the data. The final part of the paper provides a summary of the findings and offers suggestions for future research.

The study was conducted in a systematic and rigorous manner, following the principles of scientific research. The data was collected from a large sample of participants, and the results were analyzed using advanced statistical techniques. The findings of the study are presented in a clear and concise manner, allowing for a thorough understanding of the subject matter. The conclusions drawn from the data are based on a careful analysis of the results and are supported by the evidence presented in the paper.

The study has several strengths, including a large sample size and the use of advanced statistical techniques. However, there are also some limitations to the study, such as the potential for bias in the data collection process. Despite these limitations, the study provides a valuable contribution to the field and offers insights into the subject matter. The findings of the study are discussed in detail, and the implications of the results are explored. The paper concludes with a summary of the findings and a call for further research in this area.

In conclusion, the study provides a comprehensive understanding of the subject matter and offers valuable insights into the field. The findings of the study are presented in a clear and concise manner, and the conclusions drawn from the data are supported by the evidence presented in the paper. The study has several strengths, including a large sample size and the use of advanced statistical techniques. However, there are also some limitations to the study, such as the potential for bias in the data collection process. Despite these limitations, the study provides a valuable contribution to the field and offers insights into the subject matter.
